WHAT'S GROWN UP?

In 2025, young and old take a big, wobbly look at everything colourful. Ciao dreariness, hello happiness: not only children's rooms are transformed into happy oases with colourful DIYs. Disco balls and sun catchers conjure up rainbows in our homes. Iridescent materials allow you to immerse yourself in magical worlds for a short time. And the best thing about it? There are almost no rules for crafting, apart from having the courage to be yourself.

BASICS WE LOVE

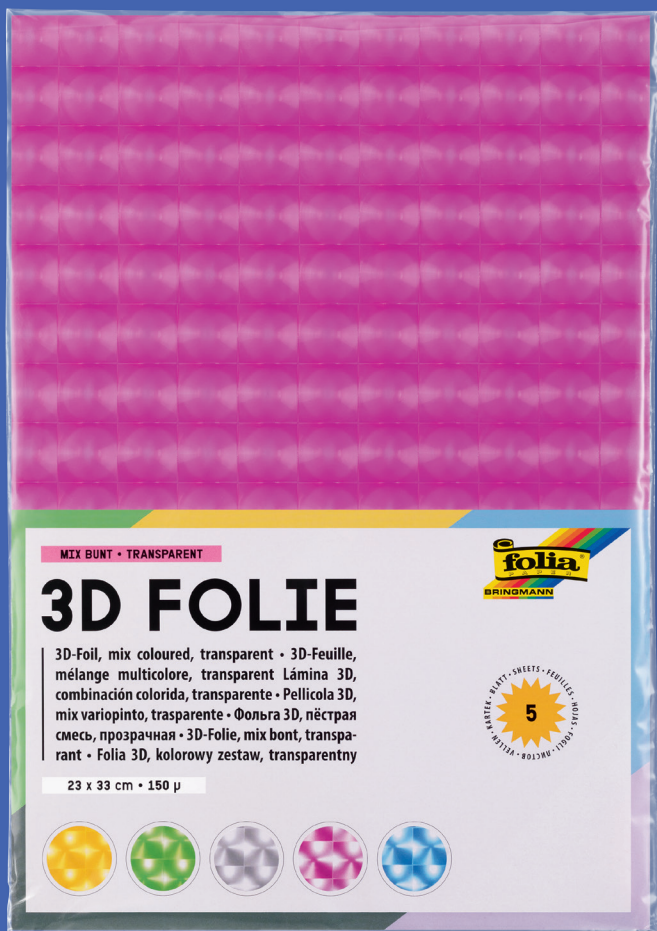

**What's the greatest thing about tinkering?
There is no right or wrong. If you cast a wiggle eye
over all the colourful materials, you can create
great little works of art with a bit of glue and a pair
of scissors.**

KIDS FUN

The world is colourful. And the easiest way for tomorrow's little creatives to learn this is with scissors and glue in their hands. And they only need a few inspirations, because imagination can do what YouTube can never teach: The magic of self-creation.
